 - Bond Bracket
- Management of Alveolar Cleft
- Pathology
- Other

Referred by: _____

Date _____

Patients Please Read: Bring a list of all medications that you are currently taking. Unless otherwise directed, all usual medications should be taken at the regular time prior to surgery. All Minor patients should be escorted by at least one parent, or their guardian. When making your appointment please tell us if you are taking Coumadin (warfarin), if you have artificial joints, if you have heart valve problems or if you require antibiotic pre-treatment.

Dr. Lawrence wants to provide you with excellent oral surgical services with care and comfort. Your first appointment may be for consultation so that your condition can be evaluated and necessary treatment can be planned and scheduled appropriately. The consultation will include an examination, radiographic evaluation if appropriate, an explanation of recommended surgery and a discussion of the anesthetic options available to you. The financial arrangements for any recommended treatment will also be discussed.

In many cases the consultation appointment is not necessary. This can save you extra visits to Dr. Lawrence and allow you to have your surgery sooner. If you pre-register and if we receive the referral and radiographs from your dentist Dr. Lawrence will be able to guide the scheduling of your procedure so that the consultation appointment may not be necessary. Please call our office for assistance with this process.
